

Contents of Volume 24

- Batten D, Nijkamp P: Barriers to communication and spatial interaction (Editorial) 233
- Batten D, Törnqvist G: Multilevel network barriers. The methodological challenge 271
- Bröcker J, Rohweder HC: Barriers to international trade. Methods of measurement and empirical evidence 289
- Button K, Rossera F: Barriers to communication. A literature review 337
- Chatterjee L → Hasnath SA
- Fischer MM, Maggi R, Rammer C: Context specific media choice and barriers to communication in universities 253
- Hansen N: Innovative regional milieus, small firms, and regional development: Evidence from Mediterranean France 107
- Hasnath SA, Chatterjee L: Public construction in the United States. An analysis of expenditure patterns 133
- Higgs PJ, Powell AA: Forecasting small-area agricultural incomes using a CGE model of the Australian economy 43
- Hwang H, Mai CC: A simple model of the choice of transport mode and plant location 197
- Ishikawa T, Toda M: Spatial configurations, competition and welfare 1
- Izraeli O, Kellman M: Some economic implications of the 1986 tax reform for the United States economy 223
- Janssen L → Rietveld P
- Kellman M → Izraeli O
- Krieg RG: Does migration function to reduce earnings differentials by race and gender? 211
- Love DO → Simon JL
- Maggi R → Fischer MM
- Mai CC → Hwang H
- Munz M, Weidlich W: Settlement formation. Part II: Numerical simulation 177
- Munz M → Weidlich W
- Nijkamp P → Batten D
- Nijkamp P, Rietveld P, Salomon I: Barriers in spatial interactions and communications. A conceptual exploration 237
- Pandit K: Service labor allocation during development: Longitudinal perspectives on cross-sectional patterns 29
- Polenske KR, Sivanides P: Linkages in the construction sector 147
- Polzin PE: The verification process and regional science 61
- Powell AA → Higgs PJ
- Rammer C → Fischer MM
- Rietveld P, Janssen L: Telephone calls and communication barriers. The case of The Netherlands 307
- Rietveld P → Nijkamp P
- Rohweder HC → Bröcker J
- Rossera F: Discontinuities and barriers in communications. The case of Swiss communities of different language 319
- Rossera F → Button K
- Roy JR: A dispersed equilibrium commodity trade model 13
- Salomon I → Nijkamp P
- Simon JL, Love DO: City size, prices, and efficiency for individual goods and services 163
- Sivanides P → Polenske KR
- Stover ME: Specification error in the estimation of the elasticity of substitution between capital and land in residential construction 125
- Toda M → Ishikawa T
- Törnqvist G → Batten D
- Weidlich W, Munz M: Settlement formation. Part I: A dynamic theory 83
- Weidlich W → Munz M
